

GREEN IS SIMPLE

SUSTAINABILITY REPORT 2019/20

OUR SUSTAINABILITY PROMISE WE EXIST TO BE A POSITIVE FORCE IN THE WORLD AND DRIVE REAL CHANGE IN THE FOOD INDUSTRY

A MESSAGE

"As a large provider of Food to Go within the UK we understand our responsibility to work in harmony with our environment and society.

2019/20 was a successful year for Simply Lunch in achieving our

goals set out in 2018/19. We ensured that we reduced our year on year vehicle emissions by replacing 75% of our fleet with low emission vehicles. 2019 was the 15th consecutive year that we have donated products daily to our partnering

charity Nightwatch and we also implemented our new employee scheme 'Simply Lunch Academy' which is aimed at developing our staff and their careers.

The last few months of the year has seen the world face a global pandemic.

This has highlighted the importance of our approach to sustainability and aided the goals we have set for 2020/21".

William Page
Head of Sustainability

OUR APPROACH

PEOPLE

We are building a business where people can develop and thrive in a safe and comfortable environment.

COMMUNITY

Community brings unity. We are actively involved in the local area supporting many positive community initiatives.

OPERATIONS

We are driving a reduction on the impact on the environment from all our operations at Simply Lunch.

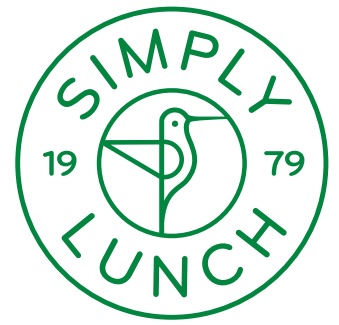

FOOD

Our development team continue to bring to market ethically sourced and sustainable products.

development

OUR 2020/21 GOALS

Businesses across the world face unique challenges as we try to navigate out of one of the biggest crises for many generations. It is very clear at Simply Lunch that our focus on sustainability needs to be as strong as ever and we have developed 3 challenging goals to ensure we continue on our journey to become the most sustainable business in our industry.

1

Plastic packaging
eliminated from Simply
Lunch packaging by the
end of 2021

2

Acquire our first
environmental
accreditation

3

Reduce Co2 emissions by
10%
