

Simply Lunch Sustainability Policy 2020 – 2021

SIMPLY LUNCH EXISTS TO BE A POSITIVE FORCE IN THE WORLD AND DRIVE REAL CHANGE IN THE FOOD INDUSTRY

Simply Lunch is a market leading manufacturer of food to go products in the UK. Our business delivers a comprehensive service from sourcing of raw materials to delivery of product to the end user. The Board of Directors are committed to ensuring Simply Lunch operates in harmony with our environment and society and will provide the resources to be able to achieve our vision and objectives.

We have a holistic view of Sustainability which is supported by our approach of four sustainability pillars:

- o Our People
- o Our Community
- o Our Operations
- o Our Food

Within each pillar we have numerous initiatives to support our vision of Simply Lunch leading the way with sustainability in our industry. Below are some of the key initiatives that we are focusing on:

- o Plastic packaging eliminated from Simply Lunch packaging by the end of 2021
- o Acquire our first environmental accreditation
- o Reduce our Co2 emissions by 10%
- o Monitoring our supply chain to ensure we are sourcing local ingredients where possible
- o Introduce additional seminars and workshops to improve employee development

Our sustainability policy is formally reviewed every 6 months to ensure our objectives remain relevant, we are meeting all necessary legislation and to ensure we are executing on our strategy effectively. Further to this, we publish an annual sustainability report to all stakeholders of our business which details our progress we have made throughout the year and our new objectives for the year ahead.
